### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Frank C. Eisenchenk on April 23, 2010.

The application has been amended as follows:

- 1. Claim 40, step b) iii: delete --by encapsulation coating, adsorption, absorption, ionic interactions or hydrophobic interactions-- and replace with --ionic interactions--.**
- 2. Claim 43, line 3: delete --pallidium-- and replace with --palladium--.**
- 3. Claim 53, line 3: delete --molecules--.**

The following is an examiner's statement of reasons for allowance:

The claimed invention as amended requires attachment of polynucleotides to said solid phase by ionic interactions. The closest prior art, Mirkin et al. (see NON-

FINAL Office Action dated April 2, 2009), expressly teaches covalent attachment of oligonucleotides to their solid phases.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Rejoinder***

Claim 40 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 59 and 60, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on November 18, 2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the

provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on May 11, 2009 was filed after the mailing date of the NON-FINAL Office Action on April 2, 2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement was considered by the examiner.

### ***Conclusion***

**Claims 40-76 are allowed.**
